

Oct 6th, 2016

Cheryl,

I can't believe it's been 7 months already since we did the presentation for American Airlines.

First and foremost my deepest and most sincere thank you to you and the entire team for making us look so good.

To say it was a huge undertaking would demean the amount of hard work that went into transforming the space at Inside Park Restaurant into the experiential environment would short change the efforts.

We asked you to take on the challenge with very little time and you managed the efforts without any pause, hesitation, and ZERO hitches.

The presentation to American Airlines proved to them as an organization that we truly are the experts in Aviation.

We are now engaged and opening 5 Flagship Lounges across the country and have no doubt that your efforts and hard work allowed us to shine!!!

Again, thank you to all that worked on the event and I look forward to working with you on other projects in the future
