

It is not everyday that you meet a group of people who continually exceed your expectations at every turn. Well, the last 6 months leading up to my birthday party the team at Impulse Productions did just that. From finding the perfect location, to producing the video invite that people are still talking about months later, the perfect cake atelier to turn a passion for shoes into an breathtaking edible 4 layer creation, to the DJ who had everyone dancing (including my Dad) all night, the photographer who captured the fun as it unfolded and the caterer who's food was so good that guests were amazed with every selection.

Impulse Productions delivered beyond what I thought was possible and did it without any hesitation and a smile. Planning my 40th birthday celebration was a fun, enlightening and an amazingly wonderful experience. I laughed, at times got so giddy that I broke out into the happy dance and at times cried tears of joy and wonderment.

I've planned birthday parties before but this one was very different and not because it was a milestone birthday. It's because I can now say that I've started my 4th decade of life with a group of extremely talented, inspirational, visionary, compassionate people I'm honored to call friend.
